

Winston Churchill

Winston Churchill was the prime minister of Britain and he has a famous part in Britain's history. He stands just over 5 feet tall, and has a deep crackly voice. He has pale wrinkly and hairy skin.

Winston Churchill has a lot of gang relations with the Chinese Mafia. He has a wife, one daughter called Lauren who's fifteen and he had a son called Bert who had been run over and died in the hospital from blood loss and the guy who was driving the car is a member of the Chinese Mafia and he laughed. That's why Winston Churchill hates them so much.

Winston Churchill is thinking of visiting the cemetery where his son is buried. Winston Churchill is fat like a hippo and weighs just under 112.4 kg's. He doesn't have very much hair left but the hair that is left is grey. He looks through mud brown eyes, and in this photo he is smoking a cigar and signing papers to the British council to get his family back, that were kidnapped by the Chinese Mafia. He is very racist towards Chinese people

Last week he had an operation on his hip to get it replaced by a metal plate and the operation took 3 and a half hours.
