## **Covid Update**

Covid infections amongst our students is still occurring on a daily basis with all classes affected now. Apart from Mondays when weekend infections at home are prevalent, the daily numbers are usually under five cases, so the virus is not spreading through school quickly. Please can parents remember to inform us if children become infected while self-isolating. Information needs to be given to the Ministry of Education about infection numbers in schools, so it is important these figures are accurate. Thank you all for the ongoing support as we move through this current wave.

#### **Online Learning**

Online learning is being provided for our families who are self-isolating or unwell with Covid. The online portal is supplementary to the classroom programme, as teachers are still responsible for their class. If you have any queries, please email your child's teacher. If your child is well and there is no Covid in the household, they can come to school.

#### **School reporting Survey**

Last year we trialled online reporting through Seesaw and we had some great feedback from the community. I know some parents found the new style not very user friendly, informative or as formal as they wished. To get a clear direction in which way to go for this year, please take one minute to fill in the two question survey. #### **EPILEPSY AWARENESS DAY – DRESS IN PURPLE ON FRIDAY**

On Friday the 25<sup>th</sup> of March we will having **Purple Day** which brings awareness to Epilepsy.

We will having this on Friday as the official **Epilepsy Awareness Day** is Saturday 26<sup>th</sup> March. Please come to school on Friday in an item of clothing that is **purple** or a whole outfit in **purple**. Please also bring a **gold coin** to show your support. The senior council will come around and collect your gold coin. Thank you for your support.

Some information about purple day:

Cassidy Megan created the idea of Purple Day in 2008, motivated by her own struggles with epilepsy. Cassidy's goal is to get people talking about epilepsy in an effort to dispel myths and inform those with seizures that they are not alone. The Epilepsy Association of The Maritimes came on board in 2008 to help develop Cassidy's idea which is now known as Purple Day.
