**KATHRYN BERKETT
PARENT EVENING FOR AGES
5 - 11 YEARS**

What can we do – as parents and community – to help our children?

We use the word resilience all the time, we want it for ourselves and for our children. But what does it actually look like? And how do we develop it? Understanding the neuroscience of how resilience develops, will help us recognise what we can do in our everyday lives and interactions, to increase resilience in our communities. This session will help you understand, in a simple yet sufficient way, how we can build resilience.

The beauty of this session is that you can take the information and immediately apply it to your world. Reports of 'you have changed our household' and 'I get it now' is very common feedback from those who attend this session. Come along to this unique, local opportunity to hear what might be the most useful information of your life!

**Tuesday 24th September
7pm - 8:30pm
Te Manawa, Aotea College**

Kathryn is a mother of two adolescents, with a Master of Educational Psychology. Kathryn teaches trauma-informed practice and has trained national and international audiences for over twenty years; working with groups such as Police, Teachers, Parents, Social Workers, NZL Rugby and many more. She also has a TEDx talk online, "Neuroscience of Device Zombies."

**KATHRYN BERKETT
PARENT EVENING FOR AGES
11 -18 YEARS**

The adolescent years are an incredible time for change. So much is going on for our youth as they transition from children to adults. This session will outline the main changes that are physically happening in their brains and in their bodies. You will be amazed at what is going on, and it will make so much sense!

Understanding the changes, and how they affect our adolescents, will give you an increased ability to deal with the behaviour that results from them. Adolescence is an important time for increasing resilience, so this information will help you support them in this area too. The beauty of this session is that you can take the information and immediately apply it to your world. Reports of 'you have changed our household' and 'I get it now' is very common feedback from those who attend this session. Come along to this unique, local opportunity to hear what might be the most useful information of your life!
